

FACILITY SCHEDULER

Screen mockups for review. Nothing is built yet — this is the design and the user flows, laid out one screen per page.

HOW A BLOCK READS

-  **RESERVED** solid crimson, team name in white
-  **PENDING** crimson dashed outline over stripes — the slot is held and the team is named
-  **CLOSED** grey hatch — outside that day's hours, or a closure date

Fill, outline and hatch rather than colour alone, so the three states hold up in greyscale.

THE LOOP

Coach picks an open slot and a length (30 / 60 / 90 min) → the request lands in the approver's inbox *and* in the Approvals queue → approve or decline → the coach gets an email and the calendar updates. Whoever gets there first decides it.

SETTLED

One location with a single bookable space · pending blocks name the team holding them · 30-minute blocks, 1.5 hours max · club brand throughout.

Releasing a reserved slot frees it for other teams right away and emails the approver.

Queue on the left, decision on the right: who asked, their note, an explicit conflict check, and the rest of that day. Approve is solid; Decline is the outline.
